Feb 2018

Dear Parents / Carers

As a school it has come to our attention that a number of students in year 11 are playing on electronic devices until the early hours of the morning. Subsequently this is having an impact on their ability to function adequately when in school resulting in falling asleep in lessons, general lethargy and unable to focus for long periods of time.

As a school we have a duty of care to inform you as parents / carers of our concerns and ask that you work with us in monitoring your child's activity on these devices during the evening and early hours of the morning.

Year 11 is one the most important academic years for any student and in order to maximise any year 11 student progress they need to be fully alert and able to focus whilst in school.

In order to achieve this, we would request that you implement some structure into the time that they have to "come off" the device and settle to sleep, enabling them to cope with the demands of a full day's education the next day.

Thanking you in anticipation of your cooperation.

A handwritten signature in black ink, appearing to read 'K Pawlyszyn'.

K Pawlyszyn
Assistant Head
