

In the spring term 2020, 78TT will be learning about....

| Subject:     | Unit & Content Overview:   |
|--------------|--|
| English      | Where Shall We Go? - Students will read and listen to stories, diaries and experiences about travelling. They will discuss reasons for travel and how experiences have to be planned. Students will explore what people experience on journeys. We will be exploring the book 'Where The Wild Things Are'.   |
| Maths        | Students will be consolidating their understanding of number as well exploring the concepts of shape and measurement. Students will also continue to work on the number fluency weekly.  |
| Science      | Students will experience a sensory journey through space. They will also identify the various objects found in space and further their knowledge and understanding of each object.   |
| Computing    | Students will continue to develop their understanding of cause and effect and also how they can present a variety of information on a computer.  |
| PE           | In PE, students will develop their understanding and experience a variety of ways they can improve their fitness. They will also begin to explore the basic elements of dance.   |
| DT           | Textiles: Travel Draw String Bag project. Students will design and make a draw string bag based on the theme of travel. They will learn the basics of weaving and hand sewing. They will also experience using a sewing machine. As part of the design element of the project, students will utilise CAD (Computer Aided Design) to come up with a logo design which will be completed using a computer controlled embroidery machine. |
| MFL - French | Students will continue to explore the French culture as well as consolidating their understanding of French greetings.   |
| Music        | The students will continue to explore the Chinese pentatonic scale and experience instruments using this five-note scale, as well as taking part in a Chinese New Year Parade using rhythm to dictate a dragon/lion dance.   |
| RE           | Students will explore the different places that someone may go on a journey. They will also develop their understanding about the different modes of transport they could use to go on a specific journey.   |
| Art          | Students will be exploring the different ways they can use various mark making implements and explore how various textures can change an effect.   |
| PHSE         | Students will explore the different things that make them happy and sad as well as exploring the different emotions they may experience.   |
| Humanities   | Students will be exploring America and the different communities that live within the country. Some students will explore the difference between the new and old communities.  |
