

## Local Offer

Our specialist staff and resources meet the need of pupils with additional needs and receive appropriate support to enable pupils to access the curriculum. Collectively our staff hold a large variety of professional qualifications including: fully qualified teachers, many of whom have advanced specialist qualifications and Master Degrees (e.g. Autism), Regional and Local Makaton Tutor, Team Teach Trainers for positive behaviour support. All of our staff have Continuous Professional Development (CPD) to ensure that they meet the needs of all our children and their families.

There is a rolling programme of initial and refresher training, to ensure that we maintain high standards of education and care in all aspects of our specialist services. We do this in partnership with the local health care team and other outside agencies to provide the highest quality education and support, ensuring that all aspects of well-being for children and young people's lives are met.

Appropriate classroom environments are provided which enable all children to access provision inclusively. A variety of resources are available to support a range of learning styles. Additional support may be provided including; teaching assistants, computer programmes, peer learning, practical aids, specialist resources and teacher support. Specific interventions and additional support, where provided, are regularly reviewed and their impact identified. Where appropriate, access arrangements for tests and exams are made according to the relevant requirements for the exam board concerned. The school has an Equalities Plan which reviews and responds to identified needs of the school community.
