

Waste Disposal Protocols

Protocols for the disposal of bodily fluids

We have various locations around school with the appropriate equipment in.

These are:

- Hygiene Room on green corridor* (opposite Room 8)
- Therapy Room
- Hydrotherapy Pool*
- Rm 4 Bathroom*
- Rm 1/2 Bathroom*
- Cupboard at the end of the dinner hall
- PE store cupboard
- Toilets outside sports hall*
- Toilet between Room 11 and Room 12*
- Staff toilet opposite the meeting room *

At each location there is a box/bucket with all the necessary equipment in along with a supply of carrier bags. All staff are responsible for reporting any shortages to Chris Cooper via a note in his drawer.

Disposal of vomit/blood

- Put on disposable gloves/apron
- Sprinkle 'Bioman 999' powder over spillage - leave for 2-3mins
- If necessary, apply more powder
- Sweep/shovel up solid matter
- Place waste in carrier bag then double bag
- Dispose of in a **yellow bag** (*) **Clinical waste**
- Cleanse area with dettox
- Place wet floor sign over the area

Disposal of faeces/urine

- Put on disposable gloves/apron
- Clean student appropriately using white roll, shower, wipes, cleansing foam etc
- Change student's clothing if necessary
- Clean area of solid/liquid waste if appropriate i.e. chair, carpet, changing bed
- Double bag all waste in carrier bags
- Dispose of in a **green bin/bag** in the areas above
- Cleanse area with dettox
- Place wet floor sign over area if necessary
- Soiled clothing should be sluiced in the laundry and placed in a separate bag to go home with the student along with a note in their journal.
